

INSTALLATION INSTRUCTIONS

K250EXT - 250 MM JD SPOUT CYLINDER EXTENSION

Thank you for your purchase of this Kooima Company product.

Your extension will need to be attached to your spout, per these instructions.

Please follow the enclosed instructions carefully to prepare your cutter for a successful and safe harvest.

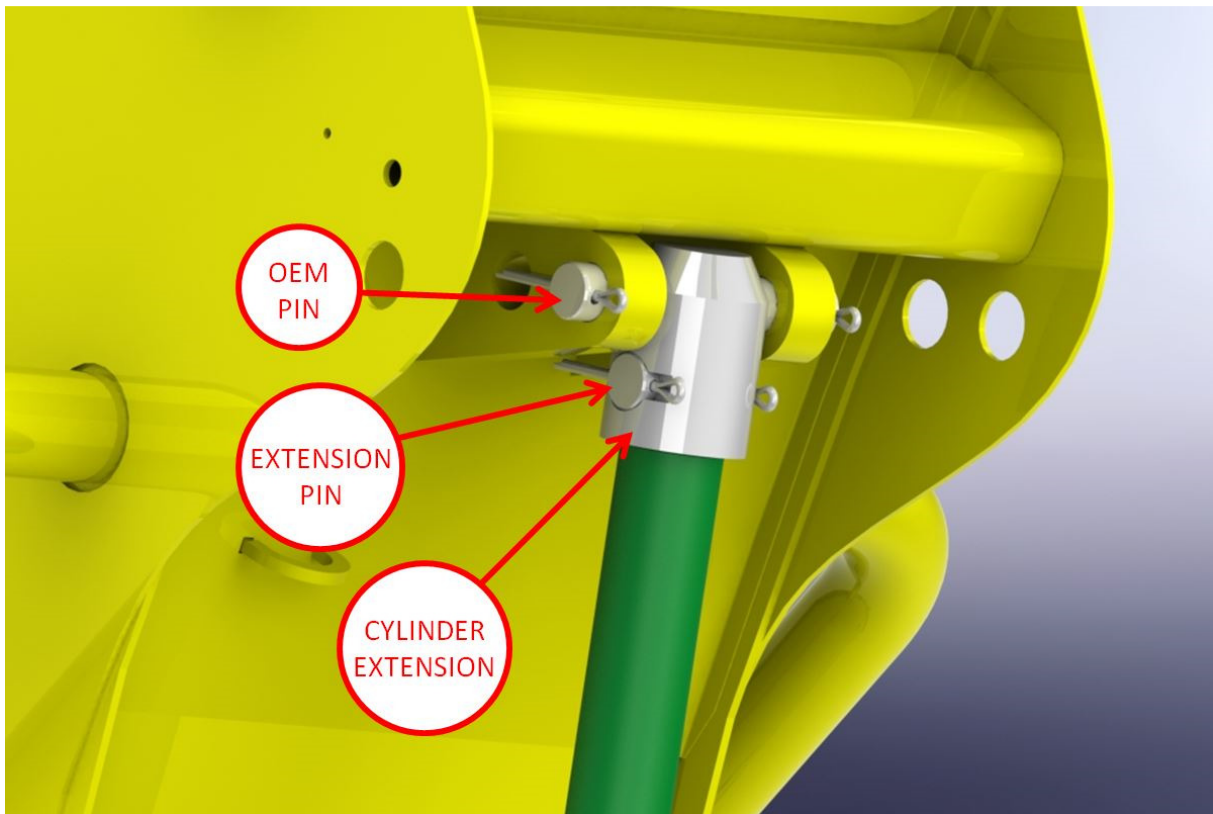

Figure 1: K250EXT Correctly Installed

- 1.) With the spout down, on the spout rest, remove the OEM spout pin.
- 2.) Retract the hydraulic spout cylinder.
- 3.) Install the cylinder extension with the extension pin and cotter pins provided.
- 4.) Adjust the hydraulic cylinder position until the top hole of the cylinder extension aligns with the spout mounting hole furthest from the cab of the cutter, as shown in Figure 1.
- 5.) Install the OEM pin into the cylinder extension hole with the cotter pins provided.
